2025-2026

We are grateful

Seycove acknowledges that we are gathered here today on the traditional, unceded territory of the Coast Salish people, specifically the Skwxwú7mesh Nation and Tsleil-Waututh Nation, and we truly value the opportunity to be able to learn, share, and grow together.

COURSE INFORMATION STUDENT 'OPEN HOUSE'

TUTORIAL TIME - FEBRUARY 11TH AND FEBRUARY 12TH

- Programming "Open House" when teachers open Tutorial Time to talk about course offerings, descriptions, pathways, learning styles etc.
- This is a way to give students the opportunity to talk to teachers and for teachers to share info about courses.
- We invite students in to ask questions, seek advice (what level of Math do I need to be comfortable in Physics?, e.g.), get clarity on courses they may have never had the chance to be in before (like our current 8s and 9s in electives), or find out what different strands of courses might look like (Math Foundations, PreCalc, Calc, e.g.)....

Will post more info on Website and in Student Grade Teams

Course Programming

Course Programming

Selecting a program of studies is an important process that should involve students, parents, teachers, administrators and counsellors. After careful consideration, courses should be chosen based on the student's strengths, interests and future requirements. Students are asked to list alternative choices on their course selection sheets, as their preferred choices may not schedule due to timetable constraints. Courses with low enrolment may not be offered. Students are advised to review course programming information carefully when planning their courses for next year.
